2023-2024 IIWAL COLORED BEGINNER PROGRAM

Red Beginner Free Skating Rules & Judging Points

Music (Mp3) for this event should be a max of 1 minute 15 seconds. Content of the program will be performed as listed below in any order. There will be NO deductions for not completing all 6 items.

1. Big Jump (no rotation) or Turning Two Foot Jump - 1/2 Turn
2. Forward Crossovers In A Circle (1 time around, one direction)
3. Forward or Backward Scissors (minimum of 3)
4. Two Foot Spin - spin entry optional
5. Bunny hop (1-3 in a row)
6. Footwork (straight line, at least ½ the width, or ¼ the length of the floor)

Judging will be based on the ability to perform the required content and manner of performance.

Jumps:

Turning Two Foot Jump 1/2 Turn: The skater should start rolling forward & turn backwards to land. The skater should not “twist” prior to the jump. Full credit should only be given when both feet land backward on the wheels. Going to the toe stops on the landing should get a deduction.

Bunny Hop: The skater should start on one foot, jump and push through with the opposite toe stop.

Big Jump: The skater should jump up (no rotation), pull arms in & land in a stretched position

Spins:

A spin must be more than one rotation with the standard definition being three or more rotations in the specified position and edge. The spin must be spotted and spin around its point of origin. The most important factor in the execution of any spin is body control.

Two foot Spin - spin entry optional - The skater should spin with his/her feet close together and complete at least three revolutions. A **FLAT FOOT** two foot spin is almost impossible to rotate three revolutions. A **HEEL AND TOE** two foot spin is a combination of the heel wheels of one skate and the toe wheels of the other. This HEEL TOE spin is what the skater should be trying to execute. A hitched two foot spin should be accepted as an attempt to do a two foot spin but not be given nearly as much credit as a properly executed FLAT FOOT or HEAL TOE continuously rotated spin.

Forward Crossovers in a circle: (1 time around, one direction)- The skater should be down in their knees. For the right over left crosses, the right foot should take the floor on the opposite side of the left foot. Note: The right foot will not tuck in like a dance cross in front. When done very well the skater will push with both feet and show control and speed while performing this skill

Footwork:

A short distance of footwork should be performed, with options like shuffles, crosses, hand movements, turns 1 or 2 feet, hops. Judges will be Backward Scissors: The skater should have a strong upper body and his/her shoulders should stay back. The skater’s feet should not go too far out when “scissoring out”. The skater should show control and speed while performing this skill.

Manner of Performance Score (Second Score):

The grade given for the execution of the free skating program. The way or style in which a skater executes any movements in a free skating program.

Performance:

The physical & emotional involvement of the skater to the intent of the music and choreography. Execution is the quality of movement & precision in delivery. Criteria: carriage, clarity of movement, style, personality & individuality, variety and contrast, balance & performance.
